Home Media Network Hard Drive
Cloud Edition

Central storage, backup, and shared access for your home network

Key Features:

- Three-step setup
- Remote access from anywhere in the world
- Automatically post to social networking sites
- Built-in iTunes server
- DLNA and UPnP certified
- Print sharing
- Device-to-device replication

The Iomega® Home Media Network Hard Drive, Cloud Edition is the easiest way to store, protect, share and access all your digital files.

Get high-capacity, reliable home network storage with the Iomega Home Media Network Hard Drive, Cloud Edition. Easily share and access files, photos, videos, and music between all your computers and with friends and family. It's powerful and fast, plus the three-step set-up is very simple, even if you've never used a network drive before. This feature-rich drive has a built in UPnP™ AV Media Server (DLNA® certified) and iTunes™ Server so content can easily be shared between computers and any other digital media adapters such as game consoles, digital picture frames or networked TVs. Plus, automatically post files to your Facebook®, YouTube® and Flickr® accounts. Now with Iomega Personal Cloud, you get direct access to files via secure login from anywhere in the world – allowing friends and family to easily view, edit and share files. Available in 1TB and 2TB capacities.

Easy to Use

Three step setup – simply plug it into your router, power it on and install the software CD. The friendly interface screen makes it easy for all family members to use.

Easy menus and settings – The new EMC Lifeline interface makes it even easier to use and adjust the different features and applications.

Feature Rich

Greater Performance – Utilizes a dual core processor to handle all your tasks and applications. 3x the read performance over the last generation means superfast speeds. Can easily stream multiple HD movies at the same time.

Energy Saving – Consumes less than 9 Watts of power during operation. Cool, quiet, fan-less design. Uses less than 3 Watts of power when idle.

UPnP and DLNA Certified AV Media Server – Able to stream photos, audio content and videos to a variety of media devices like game consoles (XBOX® 360, PlayStation® 3), audio bridges, iTunes players, picture frames, networked TVs, etc.

Torrent Enabled – Easier and faster downloads of large media files without the need of a PC.

Secure and Reliable

Receive a full suite of backup, protection and recovery software with Iomega Protection Suite which includes:
- Trend Micro antivirus   · Iomega QuikProtect
- MozyHome Online Backup Service

Device-to-Device Replication – Replicate your data to and from your Home Media drive, or to another network target using Copy Jobs.

Time Machine® Support – The Home Media drive will serve as a Time Machine target for your Apple® computers.

EMC® LifeLine™– The management software that powers all Iomega® StorCenter® NAS devices and home network solutions delivers robust functionality that stores, shares, manages, and protects data.

Convenient

Active Folders – Set up Active Folders to automatically post files to Facebook®, YouTube® and Flickr® accounts.

Iomega QuikTransfer – The QuikTransfer button on the front of your Home Media drive makes it easy to transfer data to and from a USB drive, or to run a copy job without the need of a PC.

Iomega Personal Cloud

Iomega's Personal Cloud is the ultimate solution for protecting your data and having access to it from anywhere in the world, as it simply connects the entire contents of your home network over the Internet as if you were sitting at home. Useful for work and leisure, it gives you the ability to access files and information remotely over the Internet.
- Affordable   · Simple   · Secure   · Recoverable
- Reliable   · Controlled   · Fast
